

GREAT LAKES LARGE CAP VALUE FUND

OBJECTIVES

The Great Lakes Large Cap Value Fund seeks to generate total return.

More information on the strategy's performance can be found in the current prospectus. It is designed to have a low tax expense due to low turnover and seeks to have a higher dividend yield than the Russell 1000 Value Total Return.

INVESTMENT STRATEGY

The Fund invests in common stocks issued by large-capitalization ("large cap") companies, those with a market capitalization, at the time of purchase, of over \$2 billion.

Investments are selected or sold on a "weight of the evidence" method based on the three principles guiding the process—rising or high earning power, attractive valuation and contribution to diversification. The Fund typically invests in a portfolio of 35 to 55 companies. In selecting investments for the Large Cap Value Fund's portfolio, the Adviser focuses on about 600 large cap companies and closely follows about 250 to 300 companies utilizing its team of portfolio managers and analysts.

Large Cap Value fund positions are generally less than or equal to 4% of the portfolio's market value at the time of purchase. The Adviser expects to hold most positions, excluding changes in investment cases, for at least three years in order to realize the effects of improved earning power and valuation. The Adviser anticipates that portfolio turnover will range between 10% to 40% annually.

Beta measures the volatility of the fund, as compared to that of the overall market. The Market's beta is set at 1.00; a beta higher than 1.00 is considered to be more volatile than the market, while a beta lower than 1.00 is considered to be less volatile. **Standard Deviation** "Standard Deviation is a statistical measure of the historical volatility of a mutual fund or portfolio, usually computed using 36 monthly returns. **Dividend yield** is calculated by annualizing the last quarterly dividend paid and dividing it by the current share price. The dividend yield is that of the securities held in the portfolio; it is not reflective of the yield distributed to shareholders. **The 30-day SEC Yield** represents net investment income earned by a fund over a 30-day period, expressed as an annual percentage rate based on the fund's share price at the end of the 30-day period. The SEC Yield should be regarded as an estimate of the fund's rate of investment income, and it may not equal the fund's actual income distribution rate, the income paid to a shareholder's account, or the income reported in the fund's financial statements.

AVERAGE ANNUALIZED PERFORMANCE

as of 06/30/17

	3 MO	YTD	1 YR	3 YR	Since Inception (9/28/2012)
Large Cap Value Fund - Inst.	2.38%	7.00%	19.72%	8.33%	13.56%

Mutual fund investing involves risk. Principal loss is possible. The Funds may invest in non-US Securities which involve greater volatility and political, economic and currency risks and differences in accounting methods. Diversification does not ensure a profit, nor does it prevent a loss in a declining market.

The Russell 1000 Value Index (R1000) measures the performance of the large-cap value segment of the U.S. equity universe. It includes those Russell 1000 Index companies with lower price-to-book ratios and lower expected growth values. An investment cannot be made directly in an index.

Median Market Capitalization: The midpoint of market capitalization (market price multiplied by the number of shares outstanding) of the stocks in a portfolio. Half the stocks in the portfolio will have higher market capitalizations; half will have lower. Price/Book: the ratio of a firm's closing stock price & its fiscal year end book value/share. Return on Equity: the net income divided by total common equity outstanding, expressed as a percent. Price/Earnings: the ratio of a firm's closing stock price & its trailing 12 months' earnings/share.

The Great Lakes Family of Funds are distributed by Quasar Distributors, LLC.

MANAGEMENT TEAM

Edward Calkins, CFA

Portfolio Manager/Research Analyst

Edward Calkins is a Portfolio Manager/Research Analyst at Great Lakes Advisors where he has played an instrumental role in the development of the firm's distinct approach to equity management. In 1990, Ed was one of the founders of Great Lakes Advisors, Inc. He currently leads the value equity approach, assists in managing client relationships, and participates in business development. He is a member of the management committee and the Board.

Ed worked in equity investment units at Continental Bank after graduating with an MBA with distinction from the J.L. Kellogg Graduate School of Management at Northwestern University and earning a BS with honors from Saint Louis University. He is a member of the CFA Institute and its Chicago chapter.

Wells Frice, CFA

Portfolio Manager/Research Analyst

Wells Frice is a Senior Portfolio Manager with more than 30 years of investment experience in various markets with an emphasis in common stocks. Having been at Great Lakes Advisors for over 14 years, he is involved in the management of the firm's equity assets and client relationships. Previously, Wells served in various roles at First Chicago NBD.

Wells is a graduate of Lake Forest College and is a Chartered Financial Analyst. He is a member of the CFA Institute and The Investment Analysts Society of Chicago. He is an elected member of The Board of Education of Mundelein Elementary School District #75, and recently became an elected member of the National Board of Directors of the American Youth Soccer Organization.

Huong Le, CFA

Portfolio Manager/Research Analyst

Huong Le serves as a Portfolio Manager/Research Analyst for the Large Cap Value product and as a risk specialist for Great Lakes Advisors. Prior to joining the firm in 2002, Huong was involved in pharmaceutical research at Evanston Hospital, advertising at Foote, Cone & Belding, and retirement plans at Charles Schwab and Wayne Hummer Investments.

Huong holds a BS from Northwestern University in Biology and Psychology and an MBA with concentrations in Analytical Finance and Accounting from the University of Chicago. She is a CFA charter holder and is a member of the Investment Analyst Society of Chicago and the Global Association of Risk Professionals.
